X-ray protection aprons accordance to Norm DIN EN 61331-1:2014 and DIN EN 61331-3:2014 independently certified from von 50 bis 150 KV

Welcome at Medical Index

In 1997, we started the development and production of high-quality radiation protection aprons. It is our aim to offer our customers the best protective clothing they need for their daily work.

On the following pages you will only find our product range. If you are looking for specific solutions, please contact us. We can do more than we can show you here, and we look forward to new challenges. Protecting you as best as possible - **that is our passion.**

Medical Index Makes the Difference

Our products are characterized by the use of high quality materials, individual cuts and special solutions for the user.

1. **Our cover material: high quality, individual, hygienic**

- MATRIX: high quality, unique and hygienic. Cover material that is resistant to all common disinfectants. Tested according to ASTM F1670 (2008): "Resistance to penetration by synthetic blood" and ASTM F1671 (2013): "Resistance to penetration by pathogens contained in the blood".
- Standard colors: versatile, individual and proven. In addition to the many plain colors, you can choose from various design patterns.

You can find our current color selection here at www.medical-index.de

2. **Our lead material. Three choices, one mission: X-ray protection from 50 to 150 KV**

- Standard lead (SL)
- Vector X Bilayer Lead-free (NL)
- Vector X Bilayer Light lead (LL): our light and flexible protective material, which offers an exceptionally high level of protection thanks to a double-layer technology.

Vector X is a protective material that consists of a real two-sided construction: The inner side is made of lead and thus shields the body from the fluorescent radiation. Vector X can be used in all areas because it is certified from 50 to 150 kV, but is just as light and flexible and has the same tensile strength as traditional protective materials. It goes without saying that our products are certified according to EN 61331-1 + 3: 2014.

- Lead Front Side: 0,25; 0,35; 0,50 mm Pb
- Lead Back Side: Standard: 0,25 mm Pb, optional: 0,35; 0,50 mm Pb and other Pb values on available on request.

3. **MI-Sizes: customized for you and your customers**

All models are available from size XS to XL, upon request we offer special sizes available from XXXS to XXXL.

4. **Customization**

With a personal embroidered monogram (MONO DIREKT), we customize your X-ray protection aprons. You may also choose a removable embroidery with a velcro patch (MONO KLETT).

Our Closure-systems

Medical Index offers you a variety of seven types of closure for the CA front apron. These types of closure are also available for all other models, depending on the version (see individual identification of the models).

An additional shoulder Velcro closure is also possible for fastening types 1 to 4.

1. Velcro closure

2. Elastic back closure

3. Buckle/Snap-lock closure

4. Elastic Velcro closure

5. Strap closure

6. Magnetic closure

7. Second belt with back strap

X-ray Protection Aprons

Optional Accessories

Integrated Thyroid Shield Art.-No.: ITS

Integrated Thyroid Shield (ITS) – for the protection to always remain, we sew the ITS directly onto the corresponding model.

Thyroid Shield Art.-No.: TS

Classic separate thyroid protection with Velcro in the back.

Available in 3 sizes and length:

TS00410 (collar height 4 cm; sternum 10 cm) and: TS00405, TS00415, TS00605, TS00610, TS00615

Magnet-Thyroid Shield Art.-No.: MTS

Our popular Thyroid Shield with elegant magnet closure in the back. Magnet Thyroid Shields are also available without a trim.

Available in 3 sizes:

MTS00405 - Size S

MTS00410 – Size M

MTS00415 – Size L

C-Thyroid Shield Art.-No.: CTS

A thyroid shield in a special form.

Sizes: CTS00413 – Size M und CTS00418 – Size L

Closure system: Velcro, magnet

Clip System Art.-No.: CLIP

Optional for all models: A clip system allows you to attach the apron directly to your thyroid, keeping your thyroid guard on the apron.

Integrated Sleeve Art.-No.: ISLEEVE

Sewn Sleeves can be added to your apron to provide additional protection around your shoulders.

Optional: left, right or both sides

Integrated Wings Art.-No.: IWING

Sewn wings provide flexible protection around your shoulders and your arms still retain full range of motion.

Magnet Wings Art.-No.: MWING

Wings with magnetic closure for easy on and off. This allows you to use a wing when there is a need for it and take it off to save weight.

Removable Sleeve Art.-No.: SLEEVE

Sleeves, that can be attached to the shoulder parts of the apron with Velcro or magnetic closures.

Closure system: Velcro, magnet

Optional: left, right, or both sides

Breast Pocket

Art.-No.: POCKET

Breast Pocket sewn on any desired model.

Upon request, also a dosimetry pocket on the inside.

Belts

Elastic belts:

– Snap closure on the apron

Art.-No.: VBELT

– Snap closure with a clip on the apron

Art.-No.: SBELT

Apron-/ Skirt Cutout

Art.-No.: CUTOUT

A cutout at the back provides more legroom when walking.

Anti-Slip-Fabric Art.-No.: ARI

With our innovative anti-slip inner fabric, we offer you a fabric that provides additional support and comfort. Thanks to the structure and coating, optimal adhesion to the body is enabled.

Medical-Index- Inner Fabric Art.-No.: MII

You can find our Medical Index inner material in all models with Matrix colors. Its technical properties make it particularly comfortable to wear.

medical-index.de

X-ray and Diagnostics

X-ray Protection Aprons

Front Aprons

Optimal protection for daily work

Are you looking for a radiation protection apron which you can work comfortably with, which is lightweight and still offers optimal protection?

Then our front apron is just right for you. In studies and discussions with our customers, we worked out the optimal fit, that allows you to wear it comfortably on the one hand and provides optimal protection against scattered radiation and is easy to put on and take off.

Front apron sizes

Hip width

S	50 cm
S/M	55 cm
M	60 cm
M/L	65 cm
L	70 cm
XL	75 cm

Apron length: from 90 to 130 cm
Special sizes possible upon request.

Model URO Art.-No.: URO

Our urological front apron provides adequate protection of the genital organs for examinations in a sitting position. The leg protection is fastened with a rubber Velcro strap.

Closure types: Velcro, elastic back with Velcro, shoulder Velcro
Optional: TS, MTS, CTS, POCKET, MONODIREKT, MONOKLETT See optional accessories on page 7.

Model Drop-off Art.-No.: DO

Our drop-off front apron / surgical apron. By opening the front closure, the apron can be removed under the surgical gown.

Closure type: Velcro

Model CA Art.-No.: CA

Our classic frontskirt apron for everyday use. Here you have a wide choice of closure types and accessories. In the picture from left to right: CA with integrated thyroid protection and snap closure, CA with snap closure and CA with classic Velcro closure.

Closure Types: all Closure Types (see Page 5)

Optional: ITS, TS, MTS, CTS, POCKET, VBELT, SBELT, MONODIREKT, MONOKLETT

X-ray Protection Aprons

Double-Sided Apron

Double safety from shoulder to knee

Protective clothing should provide protection where it is most needed. Above all, the upper body area in front of the sternum and collarbone must be covered. Our double aprons are ideal for this application: Complete coverage of these areas. Closure types and optional accessories are available depending on the model.

Available sizes for double sided aprons

Hip width

XXS	97 cm	XS	102 cm
S	107 cm	SM	112 cm
M	117 cm	ML	122 cm
L	127 cm	XL	132 cm
XXL	137 cm		

Length: from 90 to 130 cm

Depending on the model, the cuts and thus the feeling of adjustment can change. Special sizes possible upon request.

Model MADA Art.-No.: MADA

Apron with front overlap, V-neck and double protective material in the non-overlapping area. Features an elastic belt for maximum back relief and an optional cutout for added freedom of movement.

Closure types: Velcro, magnet

Optional: TS, MTS, CTS, POCKET, ISLEEVE, SLEEVE, WING, MWING, CUTOUT

Model DA Art.-No.: DA

Our classic double apron with front overlap and best weight distribution (picture on the left with optional sleeves).

Closure types: Velcro

Optional: TS, MTS, CTS, POCKET, VBELT, SBELT, SLEEVE, WING, CUT-OUT

Model BRDA Art.-No.: BRDA

This double apron with an overlap in the middle is convenient and easy to put on. Optimal protection is ensured by an additional lead layer on the open front.

Closure types: Velcro, magnet

Optional: TS, MTS, CTS, POCKET, VBELT, SBELT, ISLEEVE, SLEEVE, WING, MWING, CUT-OUT

Model CWDA Art.-No.: CWDA

Our apron model with easy side and shoulder closure.

Closure types: Velcro

Optional: TS, MTS, CTS, POCKET

Model Wrap Art.-No.: WDA

Our popular wrap double apron can be closed without Velcro. The elastic back ensures high wearing comfort over a long period of time. A minimal cutout at the bottom of the back provides more flexibility when wearing. Shown on the left with thyroid protection (CTS).

Closure types: Snap closure

Optional: ITS, TS, MTS, CTS, POCKET, ISLEEVE, SLEEVE, MWING, WING

Model WEDA Art.-No.: WEDA

Extremely comfortable and easy on the back thanks to the double shoulder and front closure with elastic back. A cutout at the bottom of the back provides further flexibility.

Closure types: Velcro, magnet

Optional: TS, MTS, CTS, POCKET

Model MIDA Art.-No.: MIDA

Quick to put on thanks to strapless front closure. Optimal hold possible with an additional strap.

Closure types: Velcro

Optional: ITS, TS, MTS, CTS, POCKET, VBELT, SBELT, SLEEVE

Model Tabard Art.-No.: TAB

Apron with one-sided shoulder and back closure.

Closure Type: Snap closure

Optional: TS, MTS, CTS, POCKET

X-ray Protection Aprons Skirt & Vest

Double protection – half the weight on the back

Our skirt and vest models reduce the load on the back to a minimum. More than half of the weight is on the hips and the cut of the vests also significantly reduces the load. All models comply with the IEC EN 6133-1:2014 standard.

As with the double aprons, we also offer a model without Velcro for our costumers. We are sure that you will find the right one for you among a total of seven models.

All vests are equipped with shoulder pads and the skirts have practical hangers for better storage.

Please note that each vest model has different meaning of comfort depending on the armholes.

Model WESV Art.-No.: WESV

Our wrap vest with flexible back and closures on the shoulder and in the front abdominal area.

Closure types: Velcro, magnet

Optional: TS, MTS, CTS, ELBELT, CUTOUT

Model SV Art.-No.: SV

Our classic costume: skirt and vest with frontal overlap and tight fit of the closure.

Closure type: Velcro

Optional: ITS, TS, MTS, CTS, ELBELT, ISLEEVE, SLEEVE, CUTOUT

Model BRSV Art.-No.: BRSV

Vest with frontal closure in the middle, allows a faster donning.

Closure types: Velcro, magnet

Optional: TS, MTS, CTS, ELBELT, ISLEEVE, SLEEVE, WING, MWING

Model CardiSV Art.-No.: CSV

The closure on the shoulder and the side, allow for comfortable donning.

Closure types: Velcro, magnet

Optional: TS, MTS, CTS, ELBELT, CUTOUT

Model Magnet-Wrap Art.-No.: MWSV

Our wrap vest with a flexible back and magnetic closure for easy opening. The matching skirt is a standard skirt and can be provided with a elastic back up request.

Closure type: magnet

Optional: ITS, TS, MTS, CTS, ELBELT, ISLEEVE, SLEEVE, WING, MWING

Model MISV Art.-No.: MISV

Full frontal overlap of the vest for a secure fit. In the picture with integrated thyroid protection.

Closure type: Velcro

Optional: ITS, TS, MTS, CTS, POCKET, ELBELT, ISLEEVE, SLEEVE, WING, MWING, CUTOUT

Model MASV Art.-No.: MASV

The vest with a V-neck and frontal application on the side. The full overlap in the front and the double protective material in the non-overlapping area ensure optimal protection.

Closure types: Velcro, magnet

Optional: TS, MTS, CTS, ELBELT, ISLEEVE, SLEEVE, WING, MWING, CUTOUT

Model Wrap Art.-No.: WSV

Our wrap suit with flexible back and front buckle closure that does not require any Velcro closure. Minimal cutout at the bottom of the back allows for more flexibility when wearing.

Optional: ITS, TS, MTS, CTS, ISLEEVE, SLEEVE, WING, MWING

Optional: Elastic back part on Skirt

To increase the fit and comfort, the skirt can be equipped with an elastic insert in the back. This option can be ordered for all models in a width of 10 or 14 cm.

Our anti-slip inner fabric can give extra support for your skirt.

All Skirts with a magnetic closure already have a 14 cm elastic backpart.

Elastic back part 10 cm

Art.-No.: ELBELT10

Elastic back part 14 cm

Art.-No.: ELBELT14

Röntgenschutz

X-ray Protection for Dental Medicine

Protection for dental applications

Dental X-rays are of great importance in diagnosing the oral condition. X-rays can be used to detect a wide range of dental and oral diseases at an early stage.

X-rays are taken at regular intervals – optimal protection for the patient is therefore necessary.

We offer all models with a lead equivalent of 0.25; 0.35 or 0.50 mm Pb.

Please refer to the respective models for the corresponding sizes.

Model Radio Art.-No.: DTL

Wide shoulder part and frontal length provide protection for frontal and dental exposure. Optional with integrated thyroid protection (see picture).

Closure Type: Velcro

Optional: ITS

Size: Length = 70 cm, Width = 60 cm

Model Semi-Radio Art.-No.: DSR

This dental apron is quick to put on, comfortable and protects the most important upper areas. With integrated thyroid protection.

Closure type: Velcro

Size: Length = 35 cm, Width = 70 cm

Model Panorama Art.-No.: OPT

This all-round protection is especially suitable for panoramic shots.

Closure type: Velcro

Optional: TS, MTS, CTS

Size: Length = 75 cm, Width = 48 cm

Röntgenschutz

X-ray Protection for Children

Big protection for our small patients

In principle, we can offer you all models from our range in children's sizes. You can find the most important and popular aprons here. All aprons are also equipped with shoulder pads. The standard lead equivalent is 0.50 mm Pb at the front and 0.25 mm Pb at the rear.

Sizes of kids aprons

Hip width: 45, 50, 55 cm

Length: 50, 60, 70 cm

Model KA Art.-No.: KA

The classic front apron here with a Velcro strap in the front.

Model BRKA Art.-No.: BRKA

A double apron for easy donning, here provided with an elastic snap belt.

Children-Roundhat Art.-No.: KRHAT

Our round headguard in children's size protects the head optimally. With a rubber and cord stopper to tighten and adjust the size.

Röntgenschutz

X-ray Protection for Patients

**Because protection
can be easy**

Protecting patients is an everyday challenge that places high demands on the protective material. It is used frequently and should therefore not only be robust but also easy to use. With MI patient protection products you are on the safe side.

CT-Thyroid Shield Art.-No.: CTPP and CT-Eyeshields Art.-No.: CTEP

Single use and easy disposabl with medical waste. With hypoallergenic adhesive surfaces for optimal application.

Half Apron Art.-No.: GP

Our classic half apron, here with a snap closure. With a lead equivalent of 0.50 mm Pb as standard.

Closure types: Velcro, Snap closure

Sizes: 20×25, 30×30, 37×45, 40×45, 45×50, 50×50 cm

Gonad-Troussers Art.-No.: GUW

With Velcro and a narrow snap strap for optimal hold.

Hip width: 86, 95, 105 oder 120 cm

Lead equivalence: 0,25 oder 0,50 mm Pb

Gonadskirt Art.-No.: GPS

Our gonadal protective skirt is generally shorter than a half-apron and offers all-round protection through a closed back part.

Closure type: Velcro

Size: M, L

Lead equivalence: Front: 0,50 mm Pb, Back: 0,25 mm Pb

Ovary Protection Art.-No.: OVARY SHIELD

Sizes: S (9x14 cm), M (16x19 cm), L (19x24 cm)

Also available as a Set in S/M/L and in children's sizes.

Lead equivalence: 0,50 oder 1,00 mm Pb

Gonad T-Shield Art.-No.: T-SHIELD

Sizes: S (21x32 cm), M (22x34 cm), L (23x36 cm)

Also available as a Set in S/M/L and in children's sizes.

Lead equivalence: 0,50 oder 1,00 mm Pb

Breast Protection Art.-No.: BP

The Mammary protection is ideal for one-sided examinations: The respective side of the chest can be removed and thus released for X-ray while the other side remains protected. With Velcro closure for easy opening.

Size: Universal; adjustable by Velcro

Lead equivalence: 0,35 oder 0,50 mm Pb

X-ray Finger Gloves

Art.-No.: FG

Size: S, M

Lead equivalence: 0,35 or 0,50 mm Pb

Color: Black

Surgical Gloves

Art.-No.: SG

Size: S, M, L

Optional: with and without opening

Lead equivalence: 0,25; 0,35 or 0,50 mm Pb

Leg and Foot Protector

Art.-No.: FP

Size: Standard

Lead equivalence: 0,50 mm Pb

Round Hat

Art.-No.: RHAT

The round headguard protects your head optimally from all sides. With a rubber and cord stopper to tighten and adjust the size.

Circumference: 59, 62, 65 cm

Lead equivalence: Standard 0,50 mm Pb

Available in different mm Pb values.

Head Protection with Velcro

Art.-No.: MIHAT

Our head protection that fits snugly around the head due to its shape and Velcro closure.

Size: Standard

Lead equivalence: Standard 0,50 mm Pb

Available in different mm Pb values.

Headband

Art.-No.: HBAND

Our head protection headband provides protection, especially from scattered radiation.

Circumference: 59, 62, 65 cm

Lead equivalence: Standard 0,50 mm Pb

Available in different mm Pb values.

Patient Cover

Art.-No.: LC

Our radiation protection cover can be designed according to your requirements.
Select a lead equivalence, size and color.

Standard sizes:

Length: 50, 80, 90 cm

Width: 60, 90 cm

Mobile and Stationary X-ray Protection Systems

Art.-No.: PW

(Mobile) radiation protection walls available in various sizes and designs.

X-ray Protection

X-ray Protection Glasses

For the safety of your eyes

The eye is a highly sensitive organ. At Medical Index, we have made it our mission to develop various eye protection glasses to protect your eyes in the best possible way.

Eye curve 4

Advantage: All strengths up to ± 10 diopters and ± 6 Cylinder for corneal astigmatism can be incorporated.

Optionally with integrated dosimeter

MI-100PP

3-D protection system with patented lead-free protection material.

X-rays images show:
significantly higher protection with the MI 100PP.

For comparison: market participants

Optionally with integrated dosimeter

MI-100F0

The simple solution for people who wear glasses. Fitover glasses that actually protect. The entire rim of the eye is made of lead-free radiation protection material, not plastic.

MI-SF

Our slim, stylish front safety glasses (incl. case and goggle strap).

MI-PGT

Front and side protection in a classic design
(incl. case and glasses strap).

X-ray and Diagnostics

X-ray Protection

Accessories

**It is often the little things that
make everyday life easier.**

For that reason, we offer you a useful
range of accessories for your daily work.
If you are looking for items you cannot
find here, please contact us.

MI-BAG Art.-No.: MIBAG

We have specifically designed our apron pocket to protect your apron and transport it optimally. Ideal for front aprons, skirts and vest models. With sewn-in inserts to prevent kinks and a practical handle and shoulder strap for safe carrying.

Size: 100x65 cm

Color: Red and black; Outer material: Imitation leather

MI X-ray Cleaner Art.-No.: MICLEAN

The MI X-ray cleaner was specially developed for the requirements of our X-ray protective clothing. The cleaning agent is effective and at the same time gentle for our outer material.

Racks Solutions Art.-No.: STAND

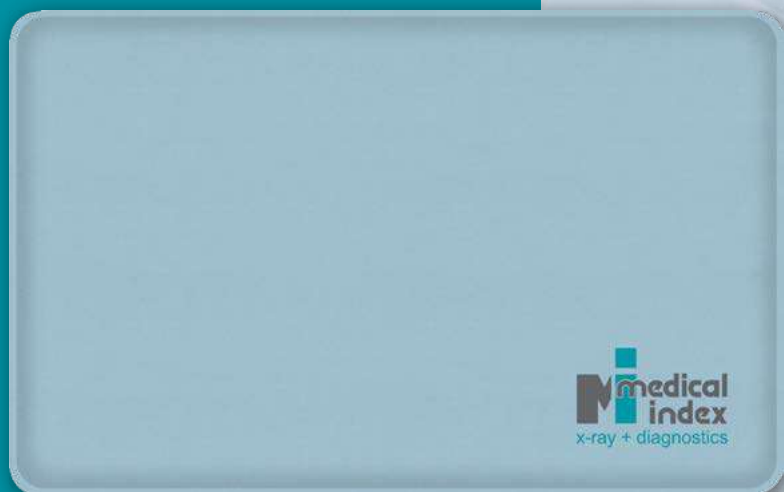

Hanging X-ray protective clothing helps to ensure that your clothing is stowed away optimally and without creases.

Mobile stands for 6 and 12 aprons/skirts as well as wall brackets for 1, 2, 3 or 6 aprons/skirts are available.

MI-Wooden Hanger Art.-No.: MIHB

Robust and strong for hanging your X-ray protective clothing.

MI-Activationmat

Art.-No.: AEM

A relief for those who have to stand for long periods of time at work.

The Medical Index Activationmat is made with a comfortable gel and supportive foam to provide comfort for surgeons, nurses, and technicians when standing for long periods of time.

Available in different sizes.

- Effortless standing by promoting blood circulation in the legs and feet
- Reduction or prevention of physical discomfort and fatigue
- The surface provides the necessary friction for wet surgical shoe covers
- Easy to clean: compatible with medical detergents
- Waterproof and does not absorb liquids

How do I order with Medical Index?

Various X-ray protection models in different sizes are available to you at Medical Index. You can also choose from a large number of colors and additional accessories.

This shows you which information is necessary for us to optimize the ordering process for you.
